

4i Expert Banking™
Overview.

4i Expert Banking helps banks and lenders to evolve and transform.

We seek out best-in-class finance technology solutions and help orchestrate them into business outcomes that rapidly deliver value to our customers, and their customers.

We actively seek out innovative solutions, alliances and partnerships primarily focusing on Core Banking and Lending.

Our arsenal is comprehensive, and continuing to grow.

A range of Fintech services and solutions to help banks evolve and transform.

CORE BANKING

Core Banking Project Recovery

- Back-to-green for wayward core banking programs

Core Banking Delivery Assurance

- End-to-end management of core banking programs

Core Banking Platforms

- Mambu - SaaS based API-first core banking and lending platform
- Oracle - Traditional end-to-end core banking platform

LENDING

Lending Evolution

- Targeted improvement and automation of current lending processes and technologies

Lending Transformation

- End-to-end management of digital lending transformation

Lending Insights

- Data aggregation and quality
- Single view of loan

DATA MANAGEMENT

Regulation Compliance and APRA reporting

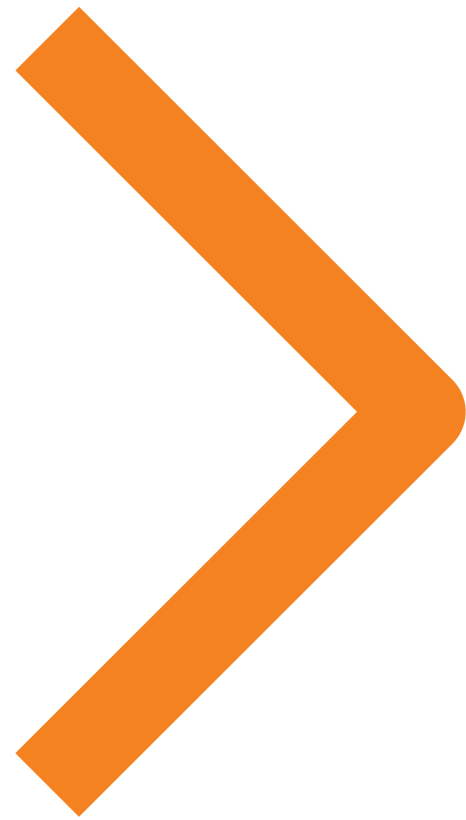

- Centralise, aggregate and validate your data prior to submitting via the APRA Connect Portal

Data Quality and Dashboarding

- Easily access efficient and up-to-date reporting of data quality across all line of business systems

Centralise all Data

- Bring your data together to create a single or complete customer view

Investment in the best technology delivers no value without people empowered by the right processes.

Effective delivery is about envisioning what's possible then harmonizing people, process and technology.

4impact focuses on leading from the front to bring these elements together.

> Create value.

We measure our success based on the business value generated for our customers. Value that is jointly envisioned, delivered and measured to leave a positive legacy.

> One size does not fit all.

We work with customers to compose right-fit solutions focused on meeting their business needs; avoiding the industry norm of repackaging and reselling over-engineered solutions.

> Build for change.

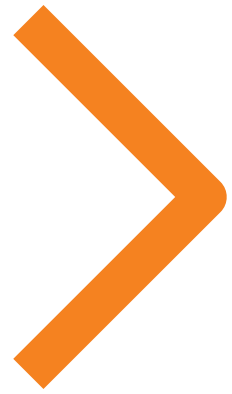

We strive to design better banking experiences that create a foundation for adaptability. We believe in simplifying banking architectures to more effectively respond to change.

> Right-fit teams.

We don't run our banking projects using cookie-cutter staffing blueprints. We build our teams based on our customers specific business needs and organisational culture.

> Do it iteratively.

We encourage incremental delivery of value. We strive to empower our customers to reduce time-to-market, derive business benefits as quickly as possible, manage cost and keep within an agreed risk appetite.

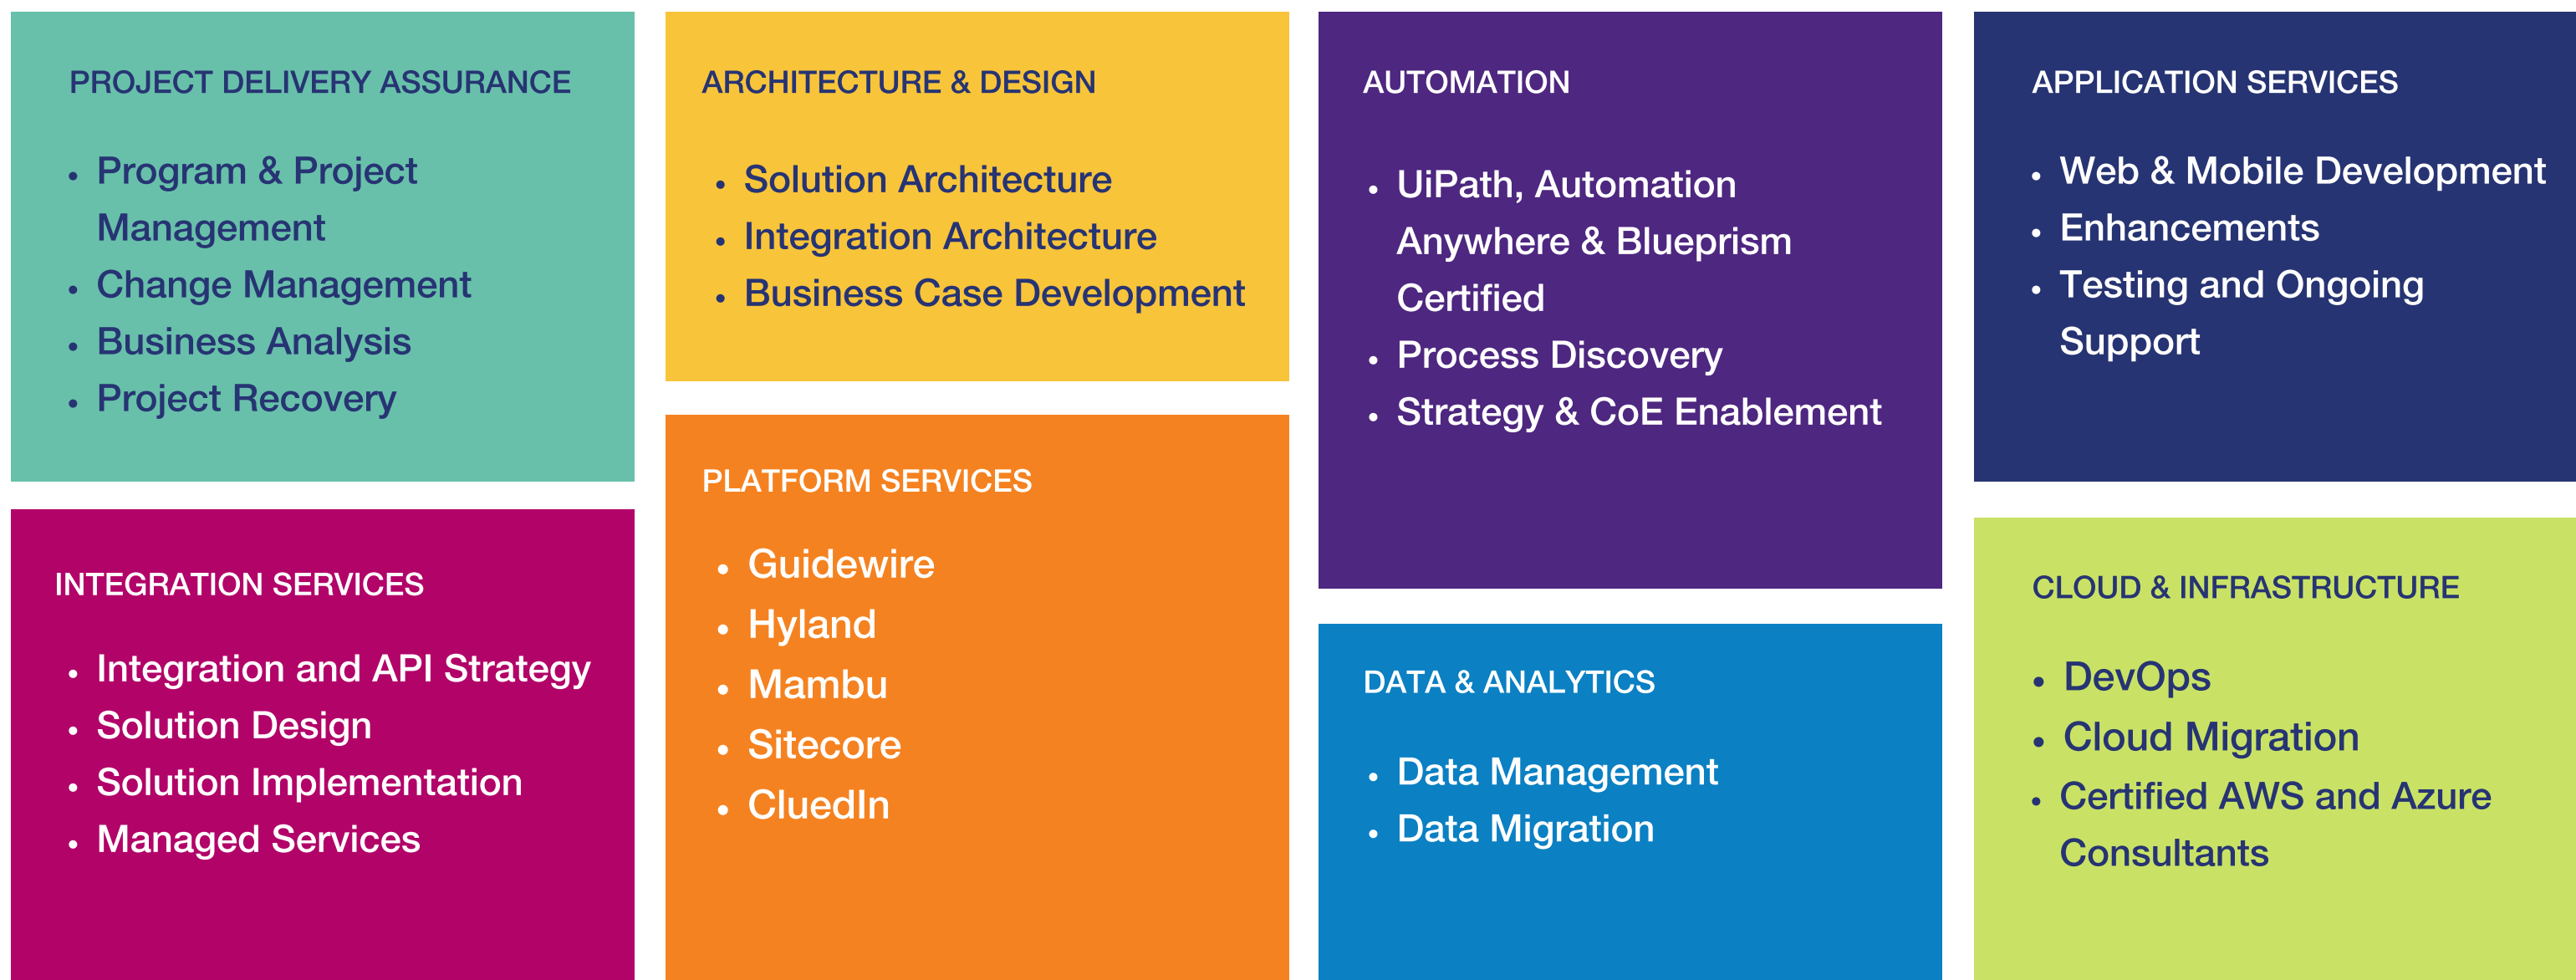

4impact provides a range of flexible delivery options to support any banking portfolio of projects or programs of change.

Core delivery capabilities.

Our unique business model combined with over 15 years of experience, enables us to bring together cohesive, experienced and skilled project teams across a range of disciplines.

Experience snapshot.
